far behind the volkswagen s expectation handelsblatt 2003 it seems that the vw phaeton faces the same destiny as its antique namesake phaeton in the greek mythology phaeton was the son of helios the sun god helios has driven the family chariot across the sky wearing the rays of the sun as a crown lighting the day one day phaeton convinced his father to lend him the beautiful chariot but phaeton in contrast to his father was not able to drive the chariot appropriately and drove the chariot so close to the earth that he boiled the oceans and scorched the land so zeus had to stop him by killing him with a lightning bolt vaughn 2003 volkswagen certainly had not considered this explanation when naming the phaeton but referred more likely to the second meaning of phaeton an elegant carriage of the 17th century which the owners drove on their own nevertheless there are signs that the volkswagen engagement in the high class luxury car market is tougher than expected it seems people are less persuadable to buy a high quality car of the experienced and renowned german car manufacturer this shows the divergence of the formerly targeted 12 000 to 15 000 units weernink 2001 annually in global sales 2003 which is opposed by the actual numbers of only 2 600 units in germany the main market of the phaeton from january to october kraftfahrtbundesamt kba and estimated sales of 3500 units worldwide handelsblatt 2003 the targeted sales of 20 000 units in 2004 weernink 2003 seem to be completely unrealistic but the volkswagen top management remained silent although volkswagen always claims
